

ANN CUSSANS

I like to live every day like it's the last and enjoy all the beauty around me .

I prefer to paint on timber between 1 and 2 metres wide, and use 100% oil paint on solid timber as it will never age, with solid timber frames.

My main preference would be to paint landscapes and the sea because of the freedom it represents for me.

I enjoy being able to paint artworks that encompass my vision of the world around me, its beauty and tranquility. I know that my artwork will be around long after I'm gone.

Sometimes I decide to paint places of enjoyment I have been to, sometimes places I imagine, but often I start painting with nothing in mind except that I may have some paint left over, and to use up the colors on my palette I will begin a sky or forest and the rest just flows where the colors are of a season or sunrise etc.

I express gratitude through my paintings. After being in a coma for many months, although now in a wheelchair, I am grateful to be alive for a little longer.

Sometimes we don't appreciate the simple everyday things until we open our eyes and really see that which is special! Hope to have most of my paintings framed ready for Mothers Day.

Any enquiries can be made via my email address: barryc45@optusnet.com.au
