

HELP-A- SCHOOL FOUNDATION'S ARTIST PROFILE...

# JONATHAN DAUGHTRY

I studied Film and TV in Brisbane, which led me into developing an interest in photography as well.

I am currently doing a Bachelor of Arts majoring in English and Creative Writing at the University of Adelaide.

I primarily photograph landscapes and nature. My aim is to capture great natural locations and moments on camera to create a sense of stillness and awe for the viewer.

I love the outdoor experiences I get while capturing photos and videos and enjoy spending time processing the photos and footage on my PC at home. I enjoy transforming something that might be taken for granted into something that will be appreciated.

It is all about the light. Light is the most important element I look for when deciding when and what to capture because a landscape can change its look and feel drastically depending on what time of day it is and whether there are clouds in the sky or not.

I try bring people into a moments of appreciation of the natural world by capturing it in its best light.
